What's new on your line?
SERVICE TO THE MINE CAP GARONNE

To provide local service, adapted to summer travel needs in the Pradet Sud district, which is heavily frequented by tourists, the **Appel Bus AB91** bus service is **extending its route to include service to the Cap Garonne Mine**.

The minibus drops you off at the new «Cap Garonne» stop, a 3-minute walk from the mine entrance.

This on-demand service operates Monday to Sunday  8:45 am to 7:00 pm, including public holidays.

HOW DOES IT WORK?

RESERVATION required up to 1 hour before your trip:

The service is provided by a minibus, waiting at the «MANGOT» stop. It travels on demand and by RESERVATION only:

- at a time that suits you
- from the departure stop to the destination stop of your choice within the service area and by the most direct route.

It serves 14 stops, including the 9 stops on line **91** in the southern part of the town: Cézanne, Bellevue, Bell'Estello, Traversier, Garonne, Collet Redon, Colle Noire, Danio, and Oursinières, and the 4 stops on Chemin des Pins: «Av. des Pins», «Collet du Pastre», «Collet du Pastre 1», and «Collet du Pastre 2». **And this summer, it will serve the new «Cap Garonne» stop No. 14.**

You can also travel from the «MANGOT» stop without a reservation to any other stop in the area. *Please note that you will not receive priority over those who have made a reservation.*
